

Heating & Welding Tips

Universal Multi-flame Brazing and Heating Tips

Style 754 Heating Tip

This heating tip is particularly useful in light range heating and brazing.

Sizes	Stock Number	For Torch	Use Mixer
8	810-0968	350/450/475	810-9201

Style 756

Universal Single-tube Multi-flame Heating Tip

Medium to heavy heating tip designed for bronze brazing heavy sections, flame-heating, flame-hardening, these tips effectively provide concentrated heat which permits fast, efficient work.

Sizes	Stock Number	When Used With Torch	Use Mixer
10	811-1910	800	810-9201
12	811-1912		
13	811-1913		
14	811-1914		

Style 759

Multi-flame heating tip - separable type

These heating tips are useful in light range heating and brazing operations, and efficiently concentrate heat using seven flames.

Sizes	Stock Number	When Used With Torch	Use Mixer	For Tip Size	Extensions	
					Stock Number	Description
5	810-0975	350/450/475	810-9201	5,7,8	810-0828	6" Rigid
7-10	810-0977 through 810-0980	550	810-0781	5,10	811-1411	9" Rigid
		550/750	810-0781	5,10	811-1412	4" Rigid
		800	811-0890	5,7,8	811-0829	8" Dual Flexible

Style 757

Universal Multi-flame Heating Tip

Interchangeable Type

These tips are useful for medium to very heavy bronze brazing, flame-heating, hardening, and are characterized by flame stability and heating efficiency.

Size	Stock Number	When Used With Torch	Use Mixer	Extensions	
				Stock Number	Description
12-14	811-2032 thru 811-2034	800	811-0899	811-0853*	18" Rigid
				811-0991*	24" Rigid
16-18**	811-2036 thru 811-2038			811-0992*	42" Rigid

** 16,17, 18 not for use with Acetylene

* Must use 811-1410 tip adapter with these extensions
